**RE: ADDITIONAL INFORMATION REQUEST FOR  
CITY OF SHELBYVILLE PHASE II NOI SUBMITTAL – PERMIT NO. TNS075531**

Mr. Howell:

This letter is in response to your request for additional information regarding the City of Shelbyville's MS4 NOI. Your letter dated January 28, 2010 (copy attached) requested additional information regarding two specific areas on the previously submitted NOI for the City of Shelbyville.

*Item 1: NOI Part V, Section 2 – Illicit Discharge Detection and Elimination*

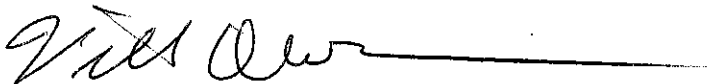

Response: Currently the City code vaguely references that illicit discharge violators shall be subject to civil penalties for each day the violation continues (Chapter 11: Section 8-1108). The City intends to review this section and add language that more clearly specifies and defines the penalties for illicit discharge violations.

*Item 2: NOI Part V, Section 4 – Permanent (Post-Construction) Stormwater Management in New Development and Redevelopment Program*

Response: Currently the City's Storm Water Management Manual (SWMM) has a brief section on detention ponds used as settling basins for solids (*Page 41: Section 6.7 – Stormwater Quality Detention and Retention*). It is the City's intention to revise the SWMM to include specific measures required of new developments and redevelopments to meet the stormwater quality standards found in the new MS4 permit. This revision should include defining "redevelopment" so there is a clear understanding as to when water quality standards will be required on sites being redeveloped.

Thank you for your inquiry on these matters. If any additional information is required please let us know.

Sincerely,  
GRIGGS & MALONEY, INC.

Will Owen, P.E.

CC: Mr. Mike Dill, City Manager  
Mr. Mark Clanton, City Public Works Director
